

VINOTHINI T

Computer Science Engineer — Full-Stack Development, AI & Business Development

Poonamalee, Chennai - 600056 | vinoism1703@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA 8.9) with hands-on full-stack development experience (React.js, Node.js, MongoDB) and applied AI/NLP work using the OpenAI and Gemini APIs, including building and tuning a conversational chatbot. Combines this technical base with Business Development experience — client engagement, product pitching, and lead qualification — gained at an AI healthtech startup, where she also tested product features end-to-end and converted user feedback into actionable product insights.

TECHNICAL SKILLS

Languages: JavaScript

Frontend: React.js, HTML, CSS, Responsive UI Design

Backend: Node.js, REST APIs, API Integration

Database: MongoDB, Database Design

AI / NLP: OpenAI API, Gemini API, Prompt Engineering, Chatbot Design & Tuning

Data Handling: Data Cleaning & Structuring, User-Feedback/Sentiment Analysis

Practices & Tools: Git/GitHub, Unit Testing, Debugging, Canva

BUSINESS DEVELOPMENT SKILLS

Client Engagement: Product pitching, prospect outreach, requirement gathering

Pipeline: Lead qualification, consistent follow-ups

Communication: Presenting technical products to non-technical stakeholders (English, Tamil)

EXPERIENCE

HealthPilot AI — Business Development & Software Testing Associate (Intern)

Chennai

- Engaged prospective clients and pitched the platform's value proposition to drive interest and adoption.
- Supported lead outreach and qualification, maintaining consistent follow-ups with prospects.
- Tested product features end-to-end and converted user feedback into actionable insights for the product team.
- Communicated technical product capabilities clearly to non-technical stakeholders, gathering requirements and pain points that fed back into product positioning.

PROJECTS

Sahaay AI — Mental Wellness Chatbot (Gemini API)

- Built a web-based AI chatbot and designed conversational flows, tuning responses for accuracy, reliability, and user engagement.
- Tested and refined bot responses through iterative review of interaction quality.

FinMate — Personal Finance Management Web Application (React, Node.js, MongoDB)

- Built a full-stack budgeting application with a structured UI to track expenses and visualize personal financial data.
- Planned AI-driven spending insights, applying an analytical approach to turning raw data into user-facing recommendations.

RoadWatch — Citizen Road Issue Reporting Platform (React, Geolocation)

- Built a citizen-facing mobile app using geolocation to capture photos and report road issues on the spot.
- Built a government-side web app to receive, track, and manage reported issues end-to-end.

ACHIEVEMENTS

- Top 12 Winning Team — Intel AI Hackathon 2025
- Special Mention — ASME IMECE India Hackathon 2025
- Runner-Up — VOID V1'25 Hackathon, VIT

- Regional Finalist — Nxtwave x OpenAI Buildathon
- National Finalist — India AI Impact Summit 2026, New Delhi
- National Finalist — India Innovates 2026, New Delhi

EDUCATION

B.E. Computer Science and Engineering — Saveetha Engineering College, Chennai

Expected May 2027 | CGPA: 8.9

CERTIFICATIONS

- Zoho Creators Student Training Program
- Website Designing and Development — Internship

ADDITIONAL INFORMATION

Languages: English, Tamil

Availability: Open to internship/full-time conversion; based in Chennai (open to office or remote as required)
